Veteran

Case-by-Case Assistance	-various grants and assistance primarily for physically injured OIF/OEF veterans
	-grants for house construction primarily for physically injured OIF/OEF veterans

Support the Heroes is a private foundation that helps such severely wounded and traumatized veterans. Our gifts are based solely on a veteran's needs. To maximize our impact, we seek strategic partnerships with like-minded organizations and close relationships with governmental agencies involved in veteran's health care.

Principles

- #1:** Support the Heroes is dedicated to helping meet the immediate needs of severely wounded veterans and their families.
- #2:** Support the Heroes is not designed to replace DOD or VA programs, but rather to supplement government's assistance or "bridge the gap" between existing programs and veterans' financial needs.
- #3:** Support the Heroes seeks strategic partnerships with veterans groups, other charitable organizations, governmental agencies and the private sector.
- #4:** Support the Heroes is an impact organization; we aim to improve the lives of wounded veterans and their families immediately.
- #5:** Veterans are not bystanders. We want to enlist them in identifying the most effective points of intervention and provide financial relief where it is most needed.
- #6:** Support the Heroes assists veterans of all services.
- #7:** Support the Heroes seeks equity, fairness and a quality of life in keeping with our veterans' sacrifices.
- #8:** Support the Heroes insists that our Board Members and strategic partners have high ethical standards.
